The College was started during the academic year 2011-12, approved by All India Council for Technical Education (AICTE), New Delhi and affiliated to Directorate of Technical Education (DOTE), Tamil Nadu to conduct Three Year Diploma level courses in Engineering and Technology, with an objective to promote quality technical education in Trichy and Neighboring Districts. It has an eco - friendly building , spread over a 7 acre , campus at Fatima Nagar, Sethurapatti Village , Srirangam Taluk , Tiruchirappalli District.

Principal Message

Rane Polytechnic College and staff want our students to have the very best future possible. Together we work hard to ensure that when students leave us they have memories to last a lifetime and the independent learning skills needed to be successful in anything they wish to do.

I have worked extremely hard since I joined the college to ensure that we are connected with our Alumni community. As a rural based college we know this area extremely well, working very closely to ensure the pathway through to Rane Polytechnic College is as smooth as possible. We are also working hard at developing our alumni and ‘friends of the college’ connections – often these connections can have a powerful impact on student achievement.

I hope you enjoy our second Alumni Newsletter and I look forward to your continued connection with Rane Polytechnic College.

STUDENTS REVIEW

It was a great time, spent in RPTC. RPTC has very wonderful faculty and they are very cooperative. The relation between faculty and student is very cordial, which gave me an opportunity to excel further. Three years spent here was splendid and has helped me excel professionally as well as personally. Apart from academic, department offers various opportunity to enjoy our college days which was attracting us towards college many of the time. Community activities, group assignments/tasks, mock interviews and employability skills development class etc., were helped me personally to groom myself in 360 degrees of life expectations

Being RPTCian, I am really enjoying a lovely experience. This college is what everyone expects to be. The pleasant environment which attracts the students to Be in college every day. I really liked the teacher's approach to the students; they always want to help us. Moreover apart from studies, students also enjoy the Co-curricular activities. This college believes in imparting Moral, Ethical knowledge among students. RPTC made me do hard work for the way to success. I am proud to be a RPTCian !

J.Radha (2013 – 2016) (DME)

'Time flies' like an arrow. The days I spent at RPTC were exactly like this proverb. My classmates and me have put a great deal of painstaking efforts into studies and all our energy into unforgettable events and activities. Unlike its relaxing surroundings, academic life at this College has been filled with learning challenging. My first year in this College was flooded with assignments, quizzes, presentation, papers and exams .However with the guidance from enthusiastic teachers all the efforts made by me were rewarded at last.
